Dear Chair DeLauro and Ranking Member Granger:

I am requesting funding for the Station Square improvement project by the Port Authority of Allegheny County. The recipient address is 345 Sixth Ave, 3rd Floor, Pittsburgh, PA 15222. The station is home to all four of the Port Authority of Allegheny County's transit modes: on street buses, busway service, light rail transit, and the Monongahela incline. This merge point is a critically important location within the Pittsburgh region; it is separated from Pittsburgh's central business district by the Monongahela River, is directly adjacent to a destination mixed-use development and lies along a major commercial corridor of South Side neighborhoods. The project consists of a redesign and enhancement of Station Square Station. The project will enhance all station amenities, and includes adding ADA features, pedestrian amenities, safety features, station canopy replacement, wayfinding, landscaping, LED lighting upgrades, and architectural features to maintain the historic feel of the station. This is a good use of taxpayer funds as it will provide a new accessible and safe transit center in a growing economic center. I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely

Mike Doyle
Member of Congress
